CHe dalle musiche consonanze sempre l'anime più grandi
prendano diletto, è attestato della più verace dottrina; poi
che la solleauatezza degli ingegni più ammirabili non solo
mà le pitagoriche armonie alle cognizioni più alte s'auuauza, ma
gode ancora fra regolati concetti del proprio Apollo le gratie.
Escono questi miei componimenti con augurio secondo alla luce,
perche nacquerò sotto la nobilissima & eruditissima protezione di
V.Ecc. e questi misurati intervalli della voce nel vederli segnati nel
dilei nome, non meno alle di lei glorie portano il mio ossequio in-
finito, che à se stessi la sicurezza d'ogni prosperità. Fù la musica
da Platone descritta simile alla guerra & alla Academia, sì che per
legge giustissima si deuono tributare queste mie musiche aplicatio-
ni al di lei nome, quale fra gl'armachimulti di Bellona ben spedo
integò al fiato delle trombe vincri il dolce suono del proprio gri-
do, o sulle più erudite palestre eccitò l'appplauso de metri più glo-
riosi. Esser l'anima nostra vn'armonia scrisse quel saggio; laonde
per immente mie obligationi douendo à V.E. offerire tutto me stes-
so, che solo spiro l'aura del di lei patrocinio in queste musiche note
il cuore & ogni mio affetto sagrando humilmente le inchino
